

Build the future: "Çobo Construction"

Through its strategy of building business and living premises in the trade centre as well as in the most attractive areas of Vlora, Cobo Construction gives you the opportunity to plan and invest in a secure future.

With two buildings completed in Vlora, one of which is 6-floors, located in the first line and the other one is 9-floors, in the second line, "Çobo Construction" gives you the opportunity to choose the perfect space for a successful business and then to live in your dream apartments. **The buildings of "Çobo Construction" fully meet, not only the requests of the clients, but also those of the state structures that find in this company, not only the full respect for the law, but also the example in the field of cooperation between the triangle constructor – client – state.**
